

A Mini Project Report
On
CONCERT BOOKING

Submitted By

D.KARUNA(21B91A0584)

G.SRIHITHA(21B91A0592)

G.LEELA SOWMYA(21B91A0595)

G.BHANU SRUJANA (21B91A0593)

CERTIFICATE

This is to certify that this is a bonafide work on “**CONCERT BOOKING WEBSITE**” for and has been submitted as a **Web Application Development Using Full Stack** laboratory report, in partial fulfilment of the requirements for the award of the Degree of Bachelor of Technology in Computer Science and Engineering, during the academic year 2022-2023. The candidate worked right under my Supervision and guidance.

Lecturers In-Charge

CH.VINOD VARMA
S.SURYANARAYANARAJU
CH.SWAROOP
Assistant professor,
Department of CSE,
S.R.K.R.engineering college,
Bhimavaram.

Head of the Department

Dr.V.CHANDRA SEKHAR,
Head of the Department,
Department of CSE,
S.R.K.R.Engineering College,
Bhimavaram.

ACKNOWLEDGEMENT

I take immense pleasure in thanking **Dr. M. Jagapathi Raju**, beloved principal of S.R.K.R Engineering College, Bhimavaram, and **Dr. V. Chandra Shekar**, esteemed **Head of the Department** (C.S.E), for having permitted me to carry out this Web Application Development Using Full Stack mini project work. I wish to express my deep sense of gratitude especially to my project Guide, **Sri Ch Vinod Varma, Assistant Professor, Sri S Suryanarayana Raju, Assistant Professor, Ch.Swaroop, Assistant Professor**, for their guidance and useful suggestions, which helped me in completing the project work, on time. Finally, yet importantly, I would like to express my heartfelt thanks to my beloved parents, faculty, my friends/classmates for their help, and my wishes for the successful completion of this project.

D.KARUNA(21B91A0584)

G.SRIHITHA(21B91A0592)

G.SOWMYA(21B91A0595)

G.BHANU(21B91A0593)

ABSTRACT

The project is about concert related website. Now-a-days concerts are popular in our daily life. This website will display the singers who are playing music and singers involved in the respective languages. This website provides the tickets for concerts at reasonable cost. The main advantage of this website is to know about concerts that are active at that particular time.

This website displays a home page and there will be a login page. If the user doesn't log in then user has to sign-up. The home page contains (upcoming as well as popular ones available), concert options in different languages and basic information. In concert's title bar there will be details about the language of a concert. It allows us to reach a page that has a list of singers and the cost of the ticket in a grid format. By selecting on the interested concert we can pay by including the required details.

MODULES

- Home page
- Login page
- Sign-up page
- Booking page
- English concert page
- Korean concert page
- Hindi concert page
- Spanish concert page
- Thankyou page
- Privacy policy page
- Help page
- Contact us page
- Who we are? page

SOFTWARE REQUIREMENTS

1. Text Editor: Visual Studio Code, Notepad
2. Front End: HTML,CSS ,JS
3. Internet Browser: Google Chrome/Mozilla Firefox/Internet Browser

HARDWARE REQUIREMENTS

1. Processor-Intel Core I5
2. RAM-8GB

SCREENSHOTS

Homepage:

The screenshot shows a dark-themed web browser window. At the top, there's a navigation bar with a back/forward button, a refresh button, and a search bar containing the URL 'File | /Users/elated_comet/_Desktop/pro/front_page.html'. Below the search bar are links for 'Gmail', 'YouTube', and 'Maps', along with an 'Incognito' button. The main content area has a header 'WELCOME TO PURE BLISS' with the tagline 'don't just exist, live!!!..'. Below this, there's a section titled 'Popular events' featuring three thumbnail images of artists performing on stage: YOYO, J BALVIN, and WEEKND. Each thumbnail includes a date and artist name.

WELCOME TO PURE BLISS

The screenshot shows a dark-themed web browser window with the same layout as the first one. It features the 'pure bliss' logo, a search bar with the URL 'File | /Users/elated_comet/_Desktop/pro/front_page.html', and an 'Incognito' button. The main content area has a header 'WELCOME TO PURE BLISS' with the tagline 'don't just exist, live!!!..'. Below this, there's a section titled 'Popular events' featuring three thumbnail images of artists performing on stage: YOYO, J BALVIN, and WEEKND. Each thumbnail includes a date and artist name.

The screenshot shows the footer section of the website. It is divided into three columns: 'Helpful Link', 'About Us', and 'Friends And Patners'. The 'Helpful Link' column contains links to 'Contact us', 'Help', and 'Do Not Sell Information'. The 'About Us' column contains links to 'Who We Are ?' and 'Privacy Policy'. The 'Friends And Patners' column contains logos for 'American Expresses', 'Allianz', and 'AWS'.

<body>

<h1 style="color:blue;text-decoration:underline;font-family:Times New Roman;text-align:center;">CSS</h1>

<p style="font-size:18px;color:red;font-family:Times New Roman;">

Cascading Style Sheets (CSS) is a style sheet language used for
describing the presentation of a document written in a markup language
such as HTML.

CSS is a cornerstone technology of the World Wide Web, alongside
HTML and JavaScript. </p>

<h1 style="color:blue;text-decoration:underline;font-family:Times New Roman;text-align:center;">HTML</h1>

<p style="font-size:18px;color:red;font-family:Times New Roman;">

The HyperText Markup Language, or HTML is the standard markup
language for documents designed to be displayed in a web browser.

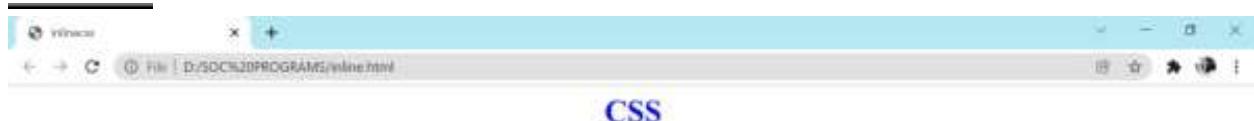

It can be assisted by technologies such as Cascading Style Sheets (CSS)
and scripting languages such as JavaScript.

</p>

</body>

</html>
```

OUTPUT:

HTML

The HyperText Markup Language, or HTML, is the standard markup language for documents designed to be displayed in a web browser. It can be assisted by technologies such as Cascading Style Sheets (CSS) and scripting languages such as JavaScript.

Sample code for javascript:

```
<html>
<head>
<script language="javascript">
function img1()
{
document.getElementById("i1").src="image2.jpg";
}
function img2()
{
document.getElementById("i1").src="image1.jpg";
}
function fun1()
{
    document.getElementById("h11").innerText="You Clicked on
Text";
}
function cse()
{
document.getElementById("h12").innerText=" This is CSE";
}
</script></head>
<body>
<center>

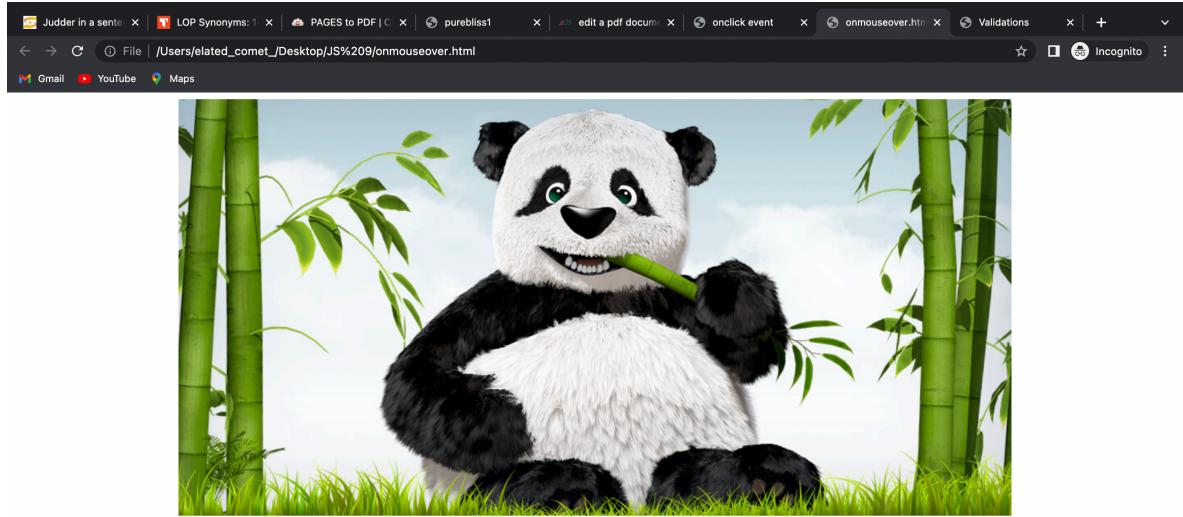

onmouseout="img2()">
</center>

<h1 id="h11" onclick="fun1()">Click on Text</h1>
<p id ="h12" onclick="cse()"> This is SRKR </p>
```

```
</body>
```

```
</html>
```

OUTPUT:

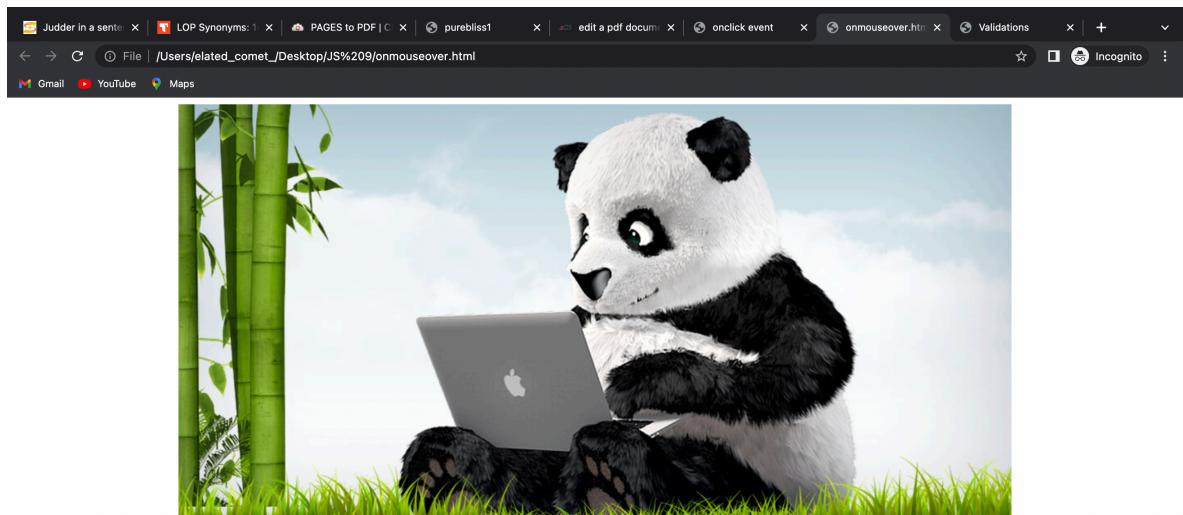

You Clicked on Text

This is CSE

AFTER MOUSE EVENT:

You Clicked on Text

This is CSE
